## Personal Statement

A Doctor of Physical Therapy that has a passion for geriatrics and evidence based therapy. A clinician that has noticed a gap in the continuum of care from services under Medicare part A and part B in which there are individuals who still require skilled therapy care in home that is no longer covered under part A services but is covered under part B benefit. In 2020 he added brick and mortar services to the existing Medicare Part B house call practice. Additionally, As of 2020 after being exposed to diagnostic musculoskeletal ultrasound Dr. Charles sought training through WCUI School of Medical Imaging with instructor Jeannine Noble PT, RMSK and also pursued training through Gulf Coast Ultrasound Institute in August 2022. In January 2023, Dr. Charles passed a board certification in diagnostic musculoskeletal ultrasound to earn the RMSK credential which is the highest level of proficiency in diagnostic musculoskeletal ultrasound.
